Printable Bunny Card & Envelope

by Kim Anne

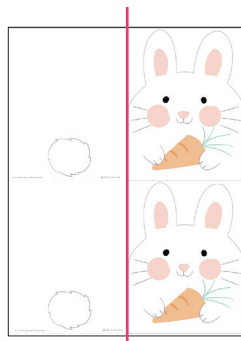

SUPPLIES

- Cardstock paper for the cards
- Thinner or regular printer paper for the envelope
- Scissors
- Glue stick

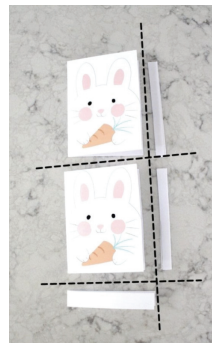

CARD INSTRUCTIONS

1. Print bunny cards onto cardstock

Note: Before printing, you may need to click "FIT" in the print preview window so image does not get cut off.

2. Fold in half

3. Cut into 2 cards

4. Cut out right side of bunny & ears. (Do NOT cut folded part)

ENVELOPE INSTRUCTIONS

5. Print envelopes onto thinner paper or regular printer paper.

6. Cut out envelope.

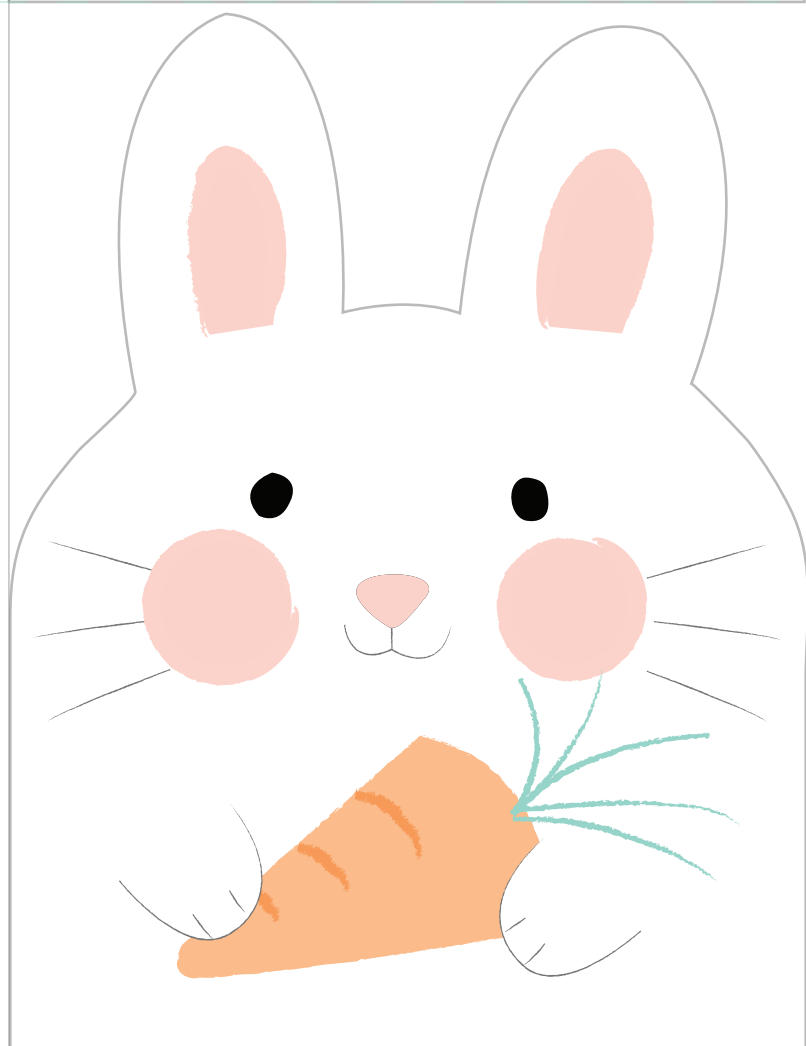

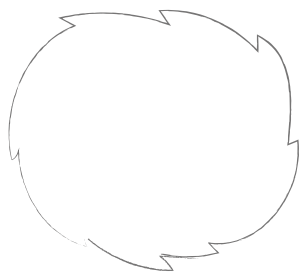

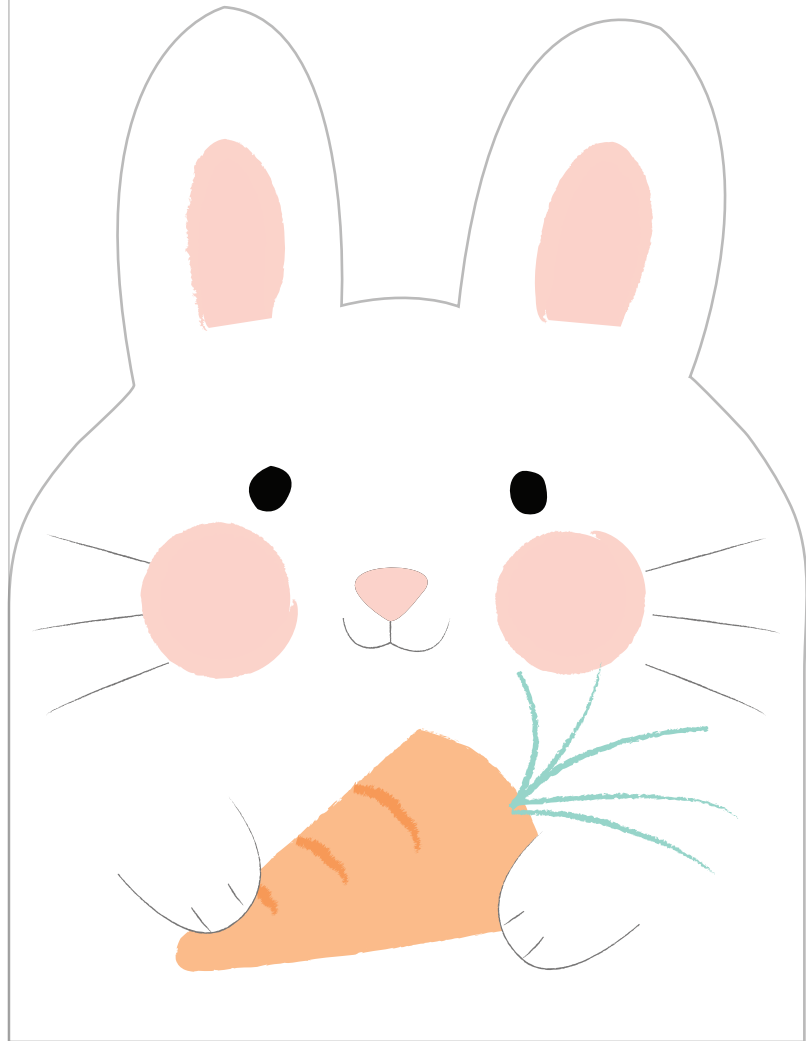

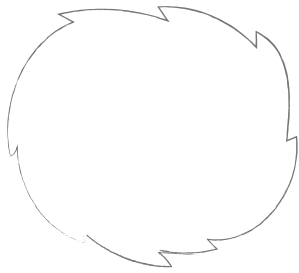

7. Turn upside down & fold each side to center to form creases.

8. Turn right-side up & glue areas within green lines on 2 sides. It's easier to glue with design faced up so you don't accidentally get glue on inside of envelope. Just be sure to protect your table from getting glue on it :)

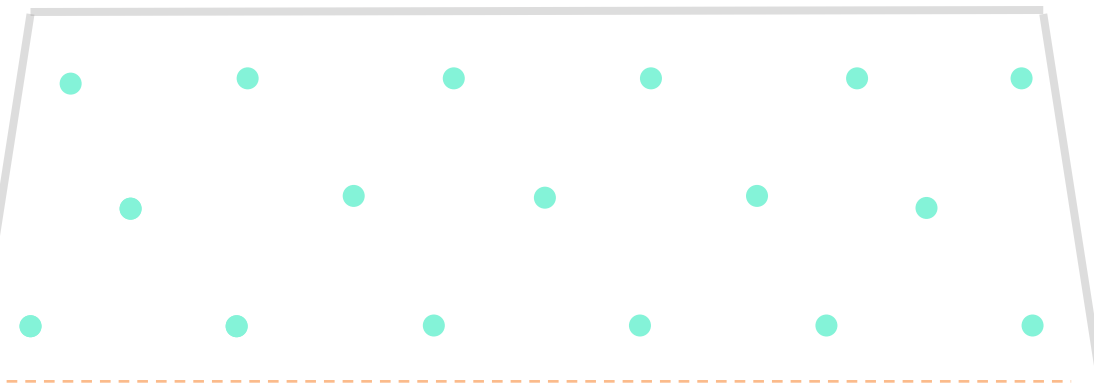

9. Turn envelope over & fold the glued sides towards center. Then, fold bottom striped flap over the 2 glued sides & press.
